ASX "EUG"

**RESULTS FOR QUARTER ENDED
31 MARCH 2009**

Corporate

As of today's date the Company's cash position is \$8.8 million and investments in listed companies total \$5.5 million.

Approximately 80% of the Company's investment portfolio is represented by a holding of 131,851,506 shares in Tanami Gold NL.

The Company is also due to receive US\$3,000,000 (A\$4.25 million) as a consequence of the disposal of its Ukrainian gold mining assets to Resource Invest LLC ("RIL") in July 2007. The funds are payable upon a regulatory milestone relating to the advancement of the Saulyak Gold Project being met.

The Company has examined and continues to examine various investment opportunities in resource projects with a particular focus on the gold mining sector. For various reasons the acquisition of projects reviewed to date have not proceeded. It is difficult for the Company to provide precise timeframes on potential acquisitions other than to say the Company is actively seeking and reviewing resource projects for possible investment by the Company. Further details will be provided by the Company if a potential acquisition proceeds.

It is not the intention of the Board that the primary business of Eurogold will be that of a passive portfolio investor in other companies that own resource projects. However, the Company may from time to time make investments in other resource companies although the majority of the Company's cash will be maintained to fund future acquisitions or to provide working capital for project development following acquisition.
